SUMMARY

I am currently pursuing a Master of Computer Applications (MCA) at Gujarat Technological University (GTU). I have hands-on experience in web development using the MERN stack, PHP, and MySQL through academic and personal projects. I am passionate about learning new technologies and seeking an opportunity to apply my skills and grow as a software developer.

PROJECTS

Hostel Management System

Developed a web-based hostel management system for student registration and room allocation. Implemented login, hostel record management, and CRUD operations using PHP and MySQL. Designed a responsive interface using HTML, CSS, and JavaScript.

GMCA

Built a simple web application using AngularJS and PHP. Integrated frontend forms with backend data processing, applied validation in forms, Applied responsive design for better usability across devices.

My-Portfolio

Developed a responsive portfolio website using MongoDB, Express.js, React.js, and Node.js. Showcased projects, skills, and contact information through a modern user interface. Deployed the application online using GitHub Pages and Render. [Code](#) | [Live](#)
